My dear President

While teaching in Columbia University Summer School, last summer, I had in my class upon The Origins of the Romance Languages, a very good student, a Mr Ford who said he was a member of the Faculty in the University of Toronto (Romance Dept.) Now, I do not find his name on the list

of your professors. I have something to write to him. I would be grateful to you for letting me know whether there is a Mr Ford in your Commerce Dept or whether there is a man of that name whom you might know in another College in Toronto.

Believe me very sincerely yours

A. Carnoy
